**Matthew 22:34-46**

Word spread about Jesus' ability to shut down attacks of various groups of Jewish leaders through his profound statements, and in the ways he asked them questions that caused them to be silenced in their amazement.

When the Pharisees had their turn with Jesus what did the expert in the law ask him in v. 36? What was Jesus' response to this? Explain Jesus' answer.

**Leviticus 19:1-2, 15-18**

The OT book of Leviticus shares many of the laws and commands that the LORD told Moses to teach the people. This teaching was twofold: (1) It taught about the character of God, and (2) it was specific to God's law for the people.

What are the principle laws that are revealed in vv. 15-18, and why do you think these particular laws were given at this time? What do these emphasize?

**Psalm 1**

Psalm 1 teaches that we are to delight in God's law. We are to meditate on God's law day and night. When we are focused on God's law we are less likely to associate ourselves with the wicked and with sinners.

How are the righteous portrayed in v. 3? How does the psalmist portray the wicked? In v. 6 we have a promise for the righteous. What is it? Explain.

**1 Thessalonians 2:1-8**

In Paul's letter to the church at Thessalonica we read that there had been strong opposition to the teaching of the gospel in Philippi. Paul shares this with them as encouragement to be faithful in their approach to teaching others.

What do we read in v. 8 that clears up any possible confusion or any vague motive for sharing the Good News of Jesus Christ? Explain your thoughts.
